Responding to poverty: the politics of cash and care

Full text not available from this repository.

Abstract

A comprehensive, accessible and original text on poverty and the responses to poverty. It focuses on policy formulation and implementation in the areas of social security, personal social services and community care. By examining the boundaries between these policy fields and their impact on the poor, the book will provide new insights into the functions of social policy, how social policy in modern Britain actually works, what it achieves and what poor people must give in return

Glasgow has become two cities, according to MPs who will ask the Government for extra funding to tackle poverty they believe has reached depths unseen anywhere else in the UK. Shimmering domes and towers by the River Clyde present an image of prosperity to visitors, but the city’s Westminster representatives believe an emergency operation must be mounted to prevent economic stagnation. In a meeting with representatives of the Department of Work and Pensions on Thursday, they will argue that added investment is needed if those living in the city’s most deprived areas are to take advan
